| <b>SKIN TYPES</b>                          | Appropriate for all skin types including sensitive. <b>Fruit allergy alert-Pineapple and Papaya</b>   |
| <b>DESCRIPTION</b>                         | This non-abrasive dermal cleanser washes away impurities and gently exfoliates dry, dead tissue without harming the surrounding healthy cells. The mild enzymes of pineapple and papaya break down the keratin (a protein) in the dead skin cells, dissolving and removing lifeless, dull, rough skin to reveal the softer, healthy layers below. This wash also includes nourishing moisturizers which help to hydrate and balance the newly exposed skin for a fresh, vibrant complexion.   |
| <b>BENEFITS</b>                            | <ul style="list-style-type: none"><li>• Removes build-up.</li><li>• Digests dead skin cells.</li><li>• Increases cellular turn-over.</li><li>• Provides hydration, protection and moisture for the newly exposed skin cells.</li><li>• Helps make the skin more receptive to subsequent products and procedures.</li></ul>  |

| <b>POWER PURE™<br/>INGREDIENTS</b>         | <b>Papaya (papain) and Pineapple (bromelain) Enzymes</b> – These naturally pure proteolytic enzymes accelerate the cellular renewal process by digesting proteins within the layer of dead skin without irritating the surrounding healthy tissue.
